

NEWS FROM KOREA

TEE where it is most needed

As reported by Pastor Soon Jin Han:

Korea TEE (**KTEE**) has recently held a training seminar to launch **SEAN** studies for several rural & fishing villages in Korea. This seminar that we held at Hoori Retreat Center and was supported by the Gaepodong Church of Seoul. About 80 pastors from rural & fishing villages attended. These brothers are doing their ministry in very harsh conditions. The people in those areas are not paid well, so many young people emigrate to the cities. There is a big difference in the cities of Korea & the countryside. The rural & fishing villages are our nearest mission field so KTEE is planning to have a seminar for them every year.
